What is Crown Force Technology?

Crown Force™ Technology

The triangular beams interlock into the proven corrugated wall profile providing optimal strength. The Crown Force design allows the tank to breathe, expanding and contracting with changes to temperature and pressure when in use to prevent cracking and roof sinking. Crown Force tanks are moulded as a single piece. No seams or joins.

Triangular Beams The ultimate design for strength and durability.

Every Tank Tested

Exceeding Australian standards

RGBlend20

Formulated uniquely to interact with the heating and moulding process to enhance molecular stability and UV protection.

Licence Number AMI 74773
AS/NZS 4766:2006

Outlets

2 × 1½" outlets fitted as standard at 3 & 9 o'clock.

Strainer & Cover

Mosquito proof stainless steel Inlet strainer & strainer cover to help prevent algae growth.

Lifting Lugs

4 × Moulded lugs for safe handling & moving into place.

Overflow

90mm overflow fitted at 6 o'clock for 9000L & above.

1 × 1½" Ball Valve

So your tank is ready for use

RISER PIPE KIT

Features:

- Supplied with a 300mm riser as standard, other lengths available by request
- Supplied fitted if ordered with a tank (specify required position)

This item is a requirement in some areas where a specified amount of water must always remain in the tank for fire fighting purposes. The household water requirement is taken from the riser pipe outlet so that the lower amount of water is always available through the Storz outlet only (Storz kit available separately - RTA67 pictured).

CODE	DESCRIPTION
RTA68	Riser Pipe Kit 50 x 300mm

Retains water level to the top of Riser Pipe

65mm quick connection Storz Fitting for fire fighting hose

RTA67

STORZ FITTINGS

CODE	DESCRIPTION
RTA60	38mm Storz fitting with 1 1/2" male thread
RTA61	38mm Storz cap

RTA63	65mm Storz cap
RTA66	38mm Storz Kit for connection to 1 1/2" female outlet
RTA67	65mm Storz Kit for connection to 1 1/2" female outlet

BUSHFIRE?

Do you live in a bushfire danger zone? Install a Riser Pipe Kit - this guarantees to keep a specified quantity of water in the bottom of your tank for an emergency!

PUMP COVERS

Features:

- Full protection for your pump from the weather
- Fully ventilated - will not cause overheating
- Will fit over any pump not exceeding these dimensions:
- RTSPC1 - 550mm (L) × 280mm (W) × 400mm (H)
- RTSPC2 - 480mm (L) × 480mm (W) × 630mm (H)

CODE	DESCRIPTION	L × W × H (mm)

RTSPC2	Large Smooth Pump cover	600 × 600 × 800

DIAL GAUGE LEVEL INDICATOR

Features:

- Seals directly to the tank
- Utilises a reliable float system
- Easy to read dial face with adjustable empty & full indicators

Suitable for:

- Small rainwater tanks, close-up viewing

**SIMPLE TO
INSTALL**

No batteries or wiring
required

RTLTG

WATER BEACON RTLWB

Features:

- Large Hi-Vis orange ball for long distance tank checking (140mm ball)
- Adaptable mounting base to suit almost any water tank roof angle (max. 45° angle)
- 3 piece sturdy 19mm aluminium rise tube (2050mm)
- Livestock proof, top mounting (out of reach from livestock)
- Insect proof, unique domed cover keeps insects from your water
- Tough & sturdy, able to withstand blustery, windy conditions

Suitable for:

- Long distance tank checking, farm / industrial application

STORAGE TANKS

- 💧 Liquid Fertiliser Storage Tanks
- 💧 Molasses Storage Tanks
- 💧 Septic Tank

“Rapid Plas offers a range of Liquid Fertiliser Tanks and Molasses Tanks rated to 1.5SG liquids (Specific Gravity). This makes them much stronger than a standard rainwater tank therefore able to hold these heavier liquids.

We also offer fully drainable storage tanks suited for use at fertiliser and chemical manufacturers and distributors, potable and waste water treatment plants and virtually any other liquid processing applications.”

FERTILISER STORAGE TANKS

Features:

- Rated for 1.5SG liquids
- Safe & reliable storage of your valuable fertiliser
- Liquidator kit accurately shows level of contents
- Industry standard 2" Banjo valves for easy filling
- Available with 3" fertiliser kit upon request

CODE	DESCRIPTION

COMMERCIAL & INDUSTRIAL STORAGE

Fully Drainable Tanks & Customised Fittings

“No matter what your industrial manufacturing process is from food production, to mechanical processing, to waste control, it is important that you have the right equipment for the right applications. Rapid Plas has innovative poly products that can allow you to create greater flexibility and reduced costs through a range of benefits. Lightweight, portable, re-usable, easy to wash and easy to drain are benefits that can be experienced with Rapid Plas products, depending on your application.”

CONE BOTTOM TANK

USE EVERY LAST DROP

Unique design enables all contents to be drained

Features:

- 15° cone bottom and full drain bung for total evacuation of contents
- Ribbed side wall tanks for superior strength
- Self supporting roof with no internal fixtures or supports
- 2" complete draining Banjo fitting installed onto all tanks (Optional 3" available)
- 3 positive tie down points / lifting lugs
- Heavy duty galvanised steel frame
- Supplied in translucent green colour so level of contents can be seen (Also available in black)
- 450mm hinged & vented lid
- Rated for 1.5 SG liquids

UNIVERSAL RAPID DRAIN TANK

The 100% poly self-draining tank that has universal applications – compact, portable and easy to use.

Features:

- Multi-purpose – can be cleaned and re-used for a variety of liquids (e.g. molasses or liquid fertiliser)
- 5° cone bottom and drain fitting for virtually 100% evacuation of contents & quick clean out
- NEW improved base for added stability - features a 2.5m Circular Stabilisation Pod to provide a much larger surface area than support legs
- Water-fillable base weighing 570kg when filled to stabilise tank when the tank is empty
- Side delivery – NO vortex created, to prevent pump sucking air
- Self supporting roof with no internal fixtures or supports
- 3 x lifting lugs / tie-down points on roof
- Easy access 2" outlet and ball valve on the side, not underneath the tank. Other outlet sizes available
- Safe filling from ground level
- 100% polyethylene construction tank and base makes it a long term solution – will not rust or corrode
- Supplied in black colour as standard (Also available in translucent green colour so level of contents can be seen)
- Store at application site and free up your truck for other use
- 450mm Hinged and vented lid
- Rated for 1.5 SG liquids
- 2 tanks will store a full B-Double load
- 2500mm diameter (can be transported without the need of an escort)

STOP THE BULLY

Longer lengths enable the whole herd to access the trough at once, so nobody misses out!

Livestock Watering

THE TOUGH TROUGH

Stock Type:

Cattle, Horses, Alpacas, Sheep, Goats

Features:

- Easier to handle - throw it on the back of a ute by yourself
- Cost effective - compared to concrete
- 2" Drain bung
- Pipe work & float valve area fully protected

Options:

- 1" or 2" valve available; can accommodate 9" float for larger valves

PTTS82W

650L TOUGH TROUGH

Diameter: 1650mm
Height: 450mm

TANK & TROUGH COMBO

Stock Type:

Cattle, Sheep, Goats

Features:

- Provides long term water security. If in the event the water supply is cut off before the combo, you still have a large body of water right at the trough. This is a great solution if you cannot check your water supply regularly
- The easiest trough to clean with its sweep out ramp, and cleaner water means better stock
- Ready-to-go. It's all done for you. No tricky installation between the tank and the trough. Just hook up at the bottom and it's right to go
- The internal plumbing prevents stock damage
- Cooler and cleaner water than traditional methods, inhibiting algae growth and is better for your stock
- Decreases the risk of stock drowning in their water supply
- Circular trough design to facilitate water flow & maximise stock watering capacity
- 2" drain bung for improved cleaning

Better Value - Tank & Trough Packs

By buying in a package you save a lot more, plus get everything delivered to your property for free* in one go.

NOTE: Must be delivered direct to farm as one complete package.* Standard freight terms apply.

CATTLE-PRO-PLUS PACK

Includes:

- 27000L tank
- 2 x 1½" outlets to feed out to both troughs
- 2 x 600L Pro Tub Troughs including float valves & covers
- A Water Beacon level indicator to check quickly that your stock have enough water
- 2 x ball valves to go out to both troughs

CATTLE-PRO PACK

Includes:

- 14000L tank
- 2 x 1½" outlets to feed out to both troughs
- 2 x 220L Pro Tub Troughs including float valves & covers
- A Water Beacon level indicator to check quickly that your stock have enough water
- 2 x ball valves to go out to both troughs

If your tank and trough capacity is too small you will need to pump more often. Increasing your electricity & maintenance costs significantly.

REMEMBER...The water consumption rates for livestock vary.

DAILY WATERING GUIDE (approx.)

Cattle: 70L Daily Sheep: 7L Daily

A MUCH BETTER WAY TO BUY.

Get the complete package with extra capacity, a 6000 gallon tank.

SHEEP-PRO-PLUS PACK

Includes:

- 14000L tank
- 2 x 1½" outlets to feed out to both troughs
- 2 x 200L Ultra Longline double paddock water troughs including float valves & covers
- A Water Beacon level indicator to check quickly that your stock have enough water
- 2 x ball valves to go out to both troughs

SHEEP-PRO PACK

- Large 500L capacity
- Durable roof with substantial overhang to protect feed from the elements
- Raised tub for extra feed protection
- Innovative lid design for easy filling & prevent injury & back strain. Removes the danger of the lid falling when refilling the tub
- Lid can be assembled to open to the left or the right
- Lid can be latched securely in the closed position to prevent stock opening it
- Patented Design

NO-LIFT

Swivel roof design means no lifting required to fill tub.

500L MINERAL FEEDER WITH ROTATING POLY LID

Dia: 2400mm
Height: 1900mm

NB: SOME ASSEMBLY MAY BE REQUIRED

MOLASSES LICKER DRUM

Stock Type: Cattle

Features:

- Proven method of supplementary feeding using molasses, water and urea mixes
- Bloat oil or other liquid supplements may be added
- Will supply 20-30 cattle for approximately 4 days
- All poly construction for corrosion resistance
- Floating roller for effective use of supplement
- No metal bearings to rust or seize
- Easy fill hole on the side
- Must have molasses mixed with 50% water

TIPS FOR SUCESSFUL CALF REARING

Calves will grow better when fed milk at a temperature of around 40°C. Calves don't thrive as well when fed cold milk as cold milk digestion requires more energy than warm milk digestion, which compromises energy for growing.

It is critical all calves receive colostrum within the first few hours of their birth. Calves which receive inadequate or no colostrum have higher mortality and lower growth rates.

“My favourite Rapid Plas product would have to be my Lamb Bar/Calfateria. I originally set it up for lambs, then used it for a couple of seasons for goat kids, and then this year bought new teats and raised calves. In between it spends a lot of time hanging on the fence and is still good as new! Thank you for such a great quality product that lasts in all weather.”

Daniel Roberts
COOTAMUNDRA

SELECTING THE RIGHT TEAT

Our **MILK MAID CALF TEAT** is best suited to feeding calves who don't yet have teeth.

Our **PEACH CALF TEAT** is stronger and better suited for feeding calves once their teeth have come in.

Livestock & Pet Care

RACE TYPE FOOTROT BATH

Stock Type:

Sheep, Goats

Features:

- Has an end to end linking feature that is ideal for placing in a sheep race
- Non slip ridges on floor open the hoof to increase chemical penetration
- Lightweight for easy handling and cleaning
- All poly, heavy duty, UV stabilised to withstand tough Australian conditions
- V-sides to prevent stock from removing their hooves from the chemical

STANDARD FOOTROT BATH

Length: 2400mm
Width: 480mm
Height: 200mm
Capacity: 90 Litres

LARGE WIDTH FOOTROT BATH

Length: 2400mm
Width: 1000mm
Height: 200mm
Capacity: 240L

ELIMINATE HARD WORK

Makes the prevention & treatment of footrot disease an easy task!

CALF SHELTER

Stock Type:

Calves, Dogs

Features:

- Large door access
- Louvre style ventilation
- Stackable, with anti-jam stacking tabs
- Tough, UV stabilised polyethylene
- Tie-down anchorage option by allowing for holes to be drilled in base

EQUINE & ANIMAL CARE

Fence Feeders & Drinkers, Chaff Bins, Mounting Step, Feed Bucket & Scoop

Rapid Plas is based in one of the equine capitals of the world – Tamworth, so it makes sense that you will find a superior range of equine products to suit every horse. Extremely strong, tough and durable poly feeders, drinkers and bins get the job done easily and safely. It is important to protect your horse with our smooth edged products when they are feeding or drinking. It is also recommended to use a Rapid Step when climbing into the saddle to protect your horse from the strain of constant neck-twisting. If you check out horse x-rays you can observe constant pulling to one side of the horse's neck, can cause a repetitive strain injury. Plus, to make the whole thing fun, the 6 colour options really liven up your stables and help you with colour coding your farm.

32 LITRE D-FEEDER

Stock Type:

Horses, Alpacas, Donkeys, Goats

Features:

- Return lip around top prevents feed from being blown or dragged out
- Corrosion proof – ideal for liquid feed supplements
- Galvanised steel mounting brackets
- Proven durability

BEST SELLER

A horse owners favourite, this design is our most popular fence feeder.

32L D-FEEDER PTS14

Length: 440mm
Width: 400mm
Height: 250mm

45 LITRE D-DRINKER

Stock Type:

Horses, Alpacas, Donkeys, Goats

Features:

- 1 piece moulded drinker plus float & cover
- ½" high pressure float valve
- Immensely strong construction
- Galvanised steel mounting brackets
- 2" drain bung for easy cleaning

45L D-DRINKER PTS01W

Length: 540mm
